An American engineer had contracted to drain the city of Mexico. Another inundation was feared, the waters of Lake Texuaco being within a few inches only of the level of the capital.

The morning papers nave the action ing special dispatches from Washington:

A rumor is current in the city that Gen. Howard is considering the propriety of resigning his position as the head of the Freedmen's Bureau.

Lewis D. Campbell, of Ohio, the newly confirmed Minister to Mexico, has arrived in the city from the west, to receive his final instructions from the Secretury of State.

The proposed appropriation of eleven or twelve million dollars for the use of the Freedmen's Bureau, is creating some little stir among public men. It has already become a question whether that frem of the appropriation bill can be passed without serious curtallment. The President is preparing a proclamation to explain that his recent peace proclamation abrogated martial law through the South, and that this one is necessary to disabuse the public mind that military interference in the coming Jeff. Davis trial will prevent an expression of the jury.

The remains of Colonei Hockenbush, of the 5th Michigan Infantry, killed in the seven days battles in front of Richmond, have been identified and forwarded to his friends in Michigan. Over two thousand bodies have been disinterred and placed in the National Cemetery at Seven Pines, twelve hundred of whom are unknown. The work still goes on.

General Grant has directed the muster out of six more colored reglinents, while seventeen thousand will be retained in the service. It is intended to send a number of them out to the West. Comptroller Clark has turned over to the House Committee on Banks and Banking all the testimony and papers in reference to the Merchants' National Bank. The committee will make a thorough expose of the whole matter, which will show up frauds that will colipse any yet published.

Very little damage has been done to Callao. Only a few hundred dollars' worth of property is said to have been destroyed, exclusive of what the batteries suffered. Ten Peruvians are reported killed and twenty wounded. Nothing reliable has been heard of the loss on the side of the Spaniards, but it is supposed to be very heavy. Owing to the short time which elapsed between the termination of the engagement and the departure of the Vanderbilt, that vessel brings up no further intelligence, nor was it known whether the Spaniards intended to renew the attack, but iards intended to renew it is supposed they will not.
